

MINI

University, Inc.

## Montgomery County's Mini University

Mini University is a 5-Star rated, NAEYC Accredited child care and preschool program, located in the Montgomery County Administration Building. We accept children as young as six weeks, and help them grow until they are ready for Kindergarten at age 5. We implement the research-based Creative Curriculum in every classroom, which is lead by a degreed teacher. We believe that children learn best through play, which means that your child will WANT to come to school every day, because we make learning FUN!
